Habens Corpus Proceedings in the Case of William Kemmier, Awalting Death by Electrocution, Save His Life Tempora-rily and Idefinitely Postpone the Day of His Taking Off—The Reasons for the Granting of the Writ.

AUBURN, N. Y., April 29.—Judge Wallace, of Syracuse, has issued an order to produce Kemmler before him June 6, and the execution will therefore be postponed.

UTICA, N. Y., April 30 .- The documents in the Kemmler habeas corpus proceedings were received by Clerk Doolittle of the United States Circuit Court at half-past ten o'clock last night. They came from Kemmler's attorney, Roger M. Sherman, and were mailed at Syracuse. A letter accom-panied the papers in which Clerk Doo-little was informed that Mr. Sherman had arranged to dispense with formal service, and requesting him to mail the writs to Warden Durston, saying that would be sufficient. The writ directs the Warden to produce the body of Kemmler before the United States Circuit Court at 10 a.m., at Canandiagua, Tuesday, June 17. The petition upon which the writ was granted is as fol-

To the Judge of the Circuit Court of the United States for the Northern District of

New York:

The petition of William Kemmler respectfully shows:

1. That he is a citizen of the United States and is deprived of his liberty by Charles F. Durston, agent and warden of Auburn prison, at Auburn, in the said Northern District of New York, who threatens and is about to put him, said Kemmler, to death by causing to pass through the body of said Kemmler a current of electricity of sufficient intensity, in the opinton of said Durston, to cause death, and that the said Kemmler is there held in custody and deprived of his liberty against his will and in violation of the Constitution of the United States.

2. The facts concerning the detention of him, said Kemmler, and the claimor of authority by virtue of which he is detained are as follows:

He was convicted in the Court of Oyer and Terminer and the County of Eric, in the State of New York, of the crime of murder in the first degree, committed March 2, 1885; and a warrant has been issued upon the judgment of said conviction to said Durston, appointing the week within which sentence must be executed, commanding said Durston to do execution upon some day within the said week by causing to pass through the body of him, the said William Kemmler, a current of electricity of sufficient intensity to cause death, and that the application of such current of electricity to be continued until he, the said William Kemmler, be dead. Said week expires on the third day of May, 1891:

2. The only authority of law for said sentence is a statute of the State of New York, chapter 480 of the laws of 1898 entitled an act to amend sections 482, 492, 543, 564, 568, 567, 568, 569 of the Code of Criminal Procedure in relation to the infliction of the death ponalty and provide means for the infliction of such penalty.

4. Said statute, is in conflict with the Constitution of the United States in that the punishment imposed thereby is cruel and unawal; and in that thereby taken from the court and delegated to an executive offieur or some uncertain substitute upon some undefined and unaccoun

Kemmler, before this court at some time to be designated in said writ, there to abide what shall be awarded by said court in the premises. And at the same time he brays your honors to issue out of said court the writ of certiferari to the Court of Oyer and Terminer of the County of Eric and the clerk thereof, commanding him forthwith to certify to said Circuit Court of the United States, true copies of the indictment record, orders and commitments in said court re-maining under or by virtue of which said William Kemmler is now deprived of his

liberty by authority of that court And your petitioner will ever pray, etc.

County Cayuga, S. S. William Kemmler being duly sworn, says: William Kemmler being duly sword, say:

'I am the petitioner named in the aforegiing petition. I have read the same, know
its contents, and the same is true to the best
of my knowledge, information and belief.

[Signed.] WILLIAM KEMMLER. [Signed.] WILLIAM REAGANN Swora by me this 24th day of April, 1800, D. H. McNier, Notary Public, Cayuga County.

The feeling of relief was scarcely less

to Warden Durston than it was to Kemmler himself, and the same may be

said of the faithful McNaughton, who, during the past few days, has been greatly wrougth up.

Judge Wallace's Reason. NEW YORK, April 80.-Judge Wallace says that in granting the Kemmler habens corpus writ he upheld views of counsel making the application, that inasmuch as the case was one of life and death the question involved should be passed upon by the highest tribunal in the land. The question as to the validity of the delegation of power to a sheriff to fix the time and circumstances of the death of a condemned man, was

a serious one. The Judge intimated that the restriction of the liberty of the press was also a question to be considered, but he did not say positively that this was one of the reasons for granting the writ. The question of the cruelty or unusual natare of the punishment would be considered by the Supreme Court. There were other questions involved, but the Judge did not care to extend the interview which was granted at a very late
